

Sustainable Models for Long-Term Care

TITLE OF STUDY

Study Committee on Sustainable Models for Long-Term Care

SCOPE OF STUDY

The scope of the study is to examine current and 10-year projected state of South Dakota's long-term care population, including total population, Medicaid-eligible population, geography, and services provided. The study will further identify alternate or additional care delivery models, including models that emphasize long-term care in the home, regionalization of long-term care facilities, or affordable care for long-term care patients and the state of South Dakota. Finally, the study will consider incentives for capital investment and innovation and sustainable funding mechanism for Medicaid-provided long-term care.
